

### Key Stage 3 Experience Passport - Curriculum Intent

At Northumberland Pupil Referral unit, we want to inspire pupils to actively seek to develop their own character, so that they ultimately become respectful, kind, resilient individuals ready to be leaders in Britain and the wider world. Northumberland PRU aspires to develop young people who, through courage, resilience and confidence, will achieve their goals, and in turn will be motivated to serve others in the local, national and global community to become flourishing members of society.

By completing our KS3 Experience Passport, our pupils will be receiving recognition of the cultural experiences they have learnt from and their personal achievements. Through engagement with their Experience Passport they will begin to develop the skills, attitudes and character virtues needed to fulfil their true potential all underpinned through the key strands of British Values.

Completion of the KS3 Experience Passport can:

- help pupils improve motivation and independence.
- encourage pupils to explore the world around them and discover new things that they might enjoy or be good at.
- encourage pupils to be more active, creative, curious, and adventurous, which can boost their physical and mental health.
- foster pupils' character and resilience, by challenging them to try new things, overcome difficulties, and learn from failures.
- support pupils' learning and academic achievement, by enhancing their communication, problem-solving, and critical thinking skills.
- strengthen pupils' relationships with their parents, teachers, and peers, by providing opportunities for shared fun, collaboration, and feedback.
